Mike had rock climbed a hundred times before without incident, but his luck finally ran out and he ended up breaking his arm on his most recent excursion. When the hot nurse in the tight white outfit told him it would take 6-8 weeks to heal, he wondered who would help him get ready everyday...his mom?....his dad?...how about Aunt Sheryl? Yeah, that's the ticket!

Warning: This ebook contains very explicit descriptions of barely legal sex between an older woman and younger man. Only mature adults who will not be offended by such content should read this story.

Here is a preview:

“When we’re done, you can take some aspirin. Let me have your other leg now.” He moved into position, and this time, when she worked on his thigh, Michael reached with his left hand and pushed his cock downward so that three times the back of Aunt Sheryl’s hand brushed against it, sending more impossible sensations running through him. When it happened a fourth time, she asked, “What is that?”

He felt his heart beating crazily, but he blurted out, “It’s my arm. I...I’m sorry, it tickles a little and I keep wanting to stop you.” He thought it was a stupid thing to say. She had to know.

But she didn’t! Instead, she softened her touch and gently finished with his leg. “Okay, Honey. Now see if you can kneel. I’m gonna wash your hair and do your face. You’re gonna have to stick your head out of the curtain, okay?”

Michael did as he was told, and as he knelt, he found himself in a lucky state. Water from the showerhead fell directly on his cock, and even after pushing his head out, his attempts with his left hand to keep the curtain in place made his awkward position explainable. He watched Sheryl put a dollop of shampoo in her hand, and when she leaned forward he realized he’d been given the opportunity to stare at her breasts with absolutely no risk of discovery. When she finally finished lathering his hair and his face and told him to rinse off, he nearly groaned in disappointment.

He did as he was told, though, and his erection was painful. When she reached in again and he turned look at her hand, his cock fell into the palm of her hand and she began rubbing for a moment before she stopped suddenly and said, “What is this?”

His brain screamed at him to pull away, but his body screamed even more loudly not to, and he whispered, “It’s my...my arm.”
