Exploring Creation with Chemistry and Physics (Young Explorer Series) Jeannie Fulbright

The newest book in Apologia's award-winning Young Explorer Series introduces your children to the fascinating world of chemistry and physics! The activities and projects in this course are sure to delight and inspire young minds. They'll begin by exploring the basic building blocks of creation, atoms and molecules, and then journey through simple chemicals, the laws of motion, and energy in its many forms, before discovering concepts of electricity and magnetism. Along the way, your students will make their own bouncy ball, formulate a smoke bomb, build a solar oven, construct a working periscope, fashion a miniature motor, and create a lava lamp! All the while, God will be glorified as the Master Designer of all that they're discovering about the world and how it works. This exciting course will give your students a love for learning and a confidence in science that will carry them through the school years and beyond.
