## Latino Politics: Identity, Mobilization, and Representation (Race, Ethnicity, and Politics)

Due to the dramatic growth of the Latino population in America, in combination with the relative decline of the Anglo (non-Hispanic white) share, Latino Studies is increasingly at the forefront of political concern. With *Latino Politics: Identity, Mobilization, and Representation*, editors Rodolfo Espino, David L. Leal, and Kenneth J. Meier bring together essays from a number of leading scholars to address the ever-more important issues within the field. Providing an overview of issues surrounding Latino identity and political opinion?such as differences among Latino groups based on national origin, the importance of descriptive representation, and issues of competition and cooperation, particularly with reference to African Americans?the editors speak to the many fundamental debates ingrained in the discipline.

In addition to highlighting important contributions of the study of Latino politics to date, this volume suggests areas that have yet to be explored and, perhaps more importantly, demonstrates how the study of Latino politics relates to broader questions of American politics and society. Foregrounding debates in the overall discipline of political science, the collection will appeal to those who study Latino politics as well as those who are interested in understanding American politics and society with reference to Latino and "minority" concerns.
