The Radiant Child (Quest Book) Thomas Armstrong

Armstrong believes that children come into this life radiating and reflecting the mystery of creation; that their spiritual nature as well as their basic instincts are close to the surface of their awareness. This hidden side of youthful consciousness has been noticed and appreciated primarily by poets, mystics, authors of fairy tales, and world mythologists -- but not by parents, teachers and child therapists. He relates mystical and transpersonal experiences in children and provides methods for keeping their inner dimension alive.
