African Diaspora in the Cultures of Latin America, the Caribbean, and the United States

African Diaspora in the Cultures of Latin America, the Caribbean, and the United States

Scholars of the African Americas are sometimes segregated from one another by region or period, by language, or by discipline. Bringing together essays on fashion, the visual arts, film, literature, and history, this volume shows how our understanding of the African diaspora in the Americas can be enriched by crossing disciplinary boundaries to recontextualize images, words, and thoughts as part of a much greater whole.

Diaspora describes dispersion, but also the seeding, sowing, or scattering of spores that take root and grow, maturing and adapting within new environments. The examples of diasporic cultural production explored in this volume reflect on loss and dispersal, but they also constitute expansive and dynamic intellectual and artistic production, neither wholly African nor wholly American (in the hemispheric sense), whose resonance deeply inflects all of the Americas. *African Diaspora in the Cultures of Latin America, the Caribbean, and the United States* represents a call for multidisciplinary, collaborative, and complex approaches to the subject of the African diaspora.
