This book is a collection of thoroughly refereed papers presented at the 25th IFIP TC 7 Conference on System Modeling and Optimization, held in Dresden, Germany, in September 2011. The 55 revised papers were carefully selected from numerous submissions. They are organized in the following topical sections: control of distributed parameter systems; stochastic optimization and control; stabilization, feedback, and model predictive control; flow control; shape and structural optimization; and applications and control of lumped parameter systems.

Playing with family in the park, coming to see the marine world or hanging out with buddies is thing that usually you will have done when you have spare time, in that case why you don't try matter that really opposite from that. A single activity that make you not experience tired but still relaxing, trilling like on

roller coaster you already been ride on and with addition of knowledge. Even you love System Modeling and Optimization: 25th IFIP TC 7 Conference, CSMO 2011, Berlin, Germany, September 12-16, 2011, Revised Selected Papers (IFIP Advances in Information and Communication Technology), you could enjoy both. It is very good combination right, you still need to miss it? What kind of hang type is it? Oh can happen its mind hangout fellas. What? Still don't have it, oh come on its named reading friends.
