It's been over six months since the birth of their daughter, and Jamie and Simon are finding that while raising a child is almost exactly as stressful as they'd been expecting, communication isn't their strong point, which just makes things harder. Despite his promises to find another job in another hospital so they could move, Simon is still working long hours in the same place, leaving Jamie to do most of the heavy lifting when it comes to raising their daughter. As if that weren't hard enough, their relationship has become somewhat long distance, and Jamie spends time driving back and forth between the house in their hometown and Simon's apartment in the city with their screaming baby girl in tow after spending time with her sick mother every week.

They both find themselves tired and irritable, more often than not, and their lack of communication just makes misunderstandings and fights happen more often than either of them have the time or energy to deal with properly. When Jamie finds out that none of Simon's friends know anything about her or their baby despite how long it's been, she has to ask herself once again if trying to make something work with Simon is the right thing to do or if she'd be better off following in her mother's footsteps and going it alone.
