Supernatural Environments in Shakespeare's England: Spaces of Demonism, Divinity, and Drama

Kristen Poole

Bringing together recent scholarship on religion and the spatial imagination, Kristen Poole examines how changing religious beliefs and transforming conceptions of space were mutually informative in the decades around 1600. *Supernatural Environments in Shakespeare's England* explores a series of cultural spaces that focused attention on interactions between the human and the demonic or divine: the deathbed, purgatory, demonic contracts and their spatial surround, Reformation cosmologies and a landscape newly subject to cartographic surveying. It examines the seemingly incongruous coexistence of traditional religious beliefs and new mathematical, geometrical ways of perceiving the environment. Arguing that the late sixteenth- and early seventeenth-century stage dramatized the phenomenological tension that resulted from this uneasy confluence, this groundbreaking study considers the complex nature of supernatural environments in Marlowe's *Doctor Faustus* and Shakespeare's *Othello*, *Hamlet*, *Macbeth* and *The Tempest*.
