HardCover. Pub Date: 2008 Pages: 546 Language: English. Chinese in Publisher: Science Press surge of a new wave of research is changing our understanding of the human mind and brain. Many areas of basic education requires students to have a basic understanding of the cognitive neuroscience. However, the majority of textbooks are prepared for biology majors, psychology and other related professional readers rarely considered. Cognitive brain and consciousness Cognitive Neuroscience Introduction is intended to fill this gap. Two editor Bernard J. Baars and Nicole M. Gage were the authority in the field of attention and perception and auditory and speech perception Morris Moscovitch (memory), the other well-known authors. FrankTong (visual). Mark H. Johrison (children's brain development). Elkhonon Goldberg (executive function). Igor Aleksander (neural networks) and Thomas Rams...
