Intermediate Algebra For College Students, Books a la Carte Edition Plus NEW MyMathLab with Pearson eText -- Access Card Package (9th Edition) Allen R. Angel, Dennis C. Runde

This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Understanding Algebra

Through many successful editions, the **Angel team** has developed a text that students can read, understand, and enjoy. They've done this by pairing clear explanations (in short sentences!) with detailed examples and thorough exercise sets.

This program provides a better teaching and learning experience for you and your students. Here's how:

- **MyMathLab®** improves results with a new video lecture series and a new downloadable Student Workbook that can be packaged with the text and/or the MyMathLab code.
- **Carefully crafted exercise sets** give students the practice they need to build understanding.
- **Clear, visual presentation** gives students content in a readable, easy-to-understand format.
