IT Governance in a Networked World: Multi-Sourcing Strategies and Social Capital for Corporate Computing (Premier Reference Source) Laurence Lock Lee

The outsourcing of IT services over the past decade has triggered a need to reassess how IT governance and sourcing should be conducted.

IT Governance in a Networked World: Multi-Sourcing Strategies and Social Capital for Corporate Computing provides theories concerning corporate social capital, intellectual capital, and social networks for academicians, practitioners, and field researchers. This book addresses relationship challenges in a world that is becoming increasingly networked, offering useful frameworks and practices for IT governance.
