Many deer hunters have told me: "I want to read a deer-hunting book with... "regular hunters who are just like me" and "the best advice from the best professional deer hunters in the nation." Years ago I learned that serving these two audiences in one book could be very difficult. However, in this book, I've tried to do just that. Mossy Oak's Pro Staff is made up of some of the nation's best deer hunters, professional deer hunters and TV hosts whose names and advice often are heard in deer camps all over the nation. But many of the more than 1,000 Mossy Oak Pro Staff hunters are every day, weekend and vacation deer hunters just like you. They're dedicated to taking older-age-class bucks and keeping their deer herds in balance by harvesting does. They're passionate about bowhunting, learning more about the deer they hunt, providing food and topquality land when possible to their deer herds, following the best game land formulas and harvesting the correct number of those animals. Whether you hunt private or public lands, you'll find tips and tactics in this book from the Mossy Oak Pro Staff that will increase your odds for locating and taking the bucks of your dreams. If you're serious about learning to hunt and take deer with a bow, if you're looking for a different strategy that will help you identify and harvest big bucks, if you want to learn from your misses as well as from the shots that connect, and if you enjoy being in the great outdoors that the Good Lord has blessed us with, then this book is for you.
