Oxford Handbook of General Practice 4e and Oxford Handbook of Public Health Practice 3e (Oxford Medical Handbooks) Chantal Simon, Hazel Everitt, Francoise van Dorp, Matthew Burke

Two titles from the bestselling Oxford Handbook series are available together in this great value pack.

Fully revised to reflect the new changes to the GP contract and the GP curriculum, this fourth edition of the best-selling *Oxford Handbook of General Practice* is a practical guide to all aspects of general practice; from vital clinical information, to valuable practical guidance from experienced GPs. This is the essential guide for all those working in general practice.

Comprehensively covering everything a doctor needs to work in, or manage a GP practice, this handbook ensures readers are always up-to-date with the latest guidelines, the most recent protocols, and cutting-edge clinical information. With concise, bullet-point information the chapters are now colour-coded to ensure the reader can find vital emergency or clinical information without delay. Fully illustrated, and packed with even more figures, diagrams, management boxes, and tables to improve ease-of-reference, the reader will always have the vital information they need at their fingertips.

Fully revised and updated for the third edition, the *Oxford Handbook of Public Health Practice* remains the first resort for all those working in this broad field. Structured to assist with practical tasks, translating evidence into policy, and providing concise summaries and real-world issues from across the globe, this literally provides a world of experience at your fingertips.

Easy-to-use, concise and practical, it is structured into seven parts that focus on the vital areas of assessment, data and information, direct action, policy, health-care systems, personal effectiveness and organisational development. Reflecting recent advances, the most promising developments in practical public health are presented, as well as maintaining essential summaries of core disciplines. This handbook is designed to assist students and practitioners around the world, for improved management of disasters, epidemics, health behaviour, acute and chronic disease prevention, community and government action, environmental health, vulnerable populations, and more.
