Brahms and His World: A Biographical Dictionary Peter Clive

As an influential and well-connected composer, Johannes Brahms (1833-1897) had encountered, befriended, and collaborated with hundreds of people over his significant career. In *Brahms and His World: A Biographical Dictionary*, author Peter Clive provides extensive and up-to-date information on the composer's personal and professional association with some 430 persons. These persons include relatives, friends, acquaintances, and physicians; fellow musicians and composers whom Brahms particularly admired and in the editions of whose works he was involved; conductors, instrumentalists, and singers who took part in notable or first performances of his works; poets whose texts he set to music; publishers and artists; and even the rulers of certain German states with whom he had significant contact. Offering information not usually available in Brahms' biographies, this volume combines findings from both primary and secondary sources, giving insights into Brahms' character, his life, and his career, and shedding light on the educated middle and upper class culture of the nineteenth century. A comprehensive chronology of Brahms' life, a bibliography, and two indexes round out this important reference guide.
