M-Theory and Quantum Geometry (Nato Science Series C:)

M-Theory and Quantum Geometry (Nato Science Series C:)

The fundamental structure of matter and spacetime at the shortest length scales remains an exciting frontier of basic research in theoretical physics. A unifying theme in this area is the quantization of geometrical objects. The majority of lectures at the Advanced Study Institute on Quantum Geometry in Akureyri was on recent advances in superstring theory, which is the leading candidate for a unified description of all known elementary particles and interactions. The geometric concept of one-dimensional extended objects, or strings, has always been at the core of superstring theory but in recent years the focus has shifted to include also higher-dimensional objects, so called D-branes, which play a key role in the non-perturbative dynamics of the theory. A related development has seen the strong coupling regime of a given string theory identified with the weak coupling regime of what was previously believed to be a different theory, and a web of such "dualities" that interrelates all known superstring theories has emerged. The resulting unified theoretical framework, termed M-theory, has evolved at a rapid pace in recent years.

From reader reviews:

Joann Hamilton:

A lot of people always spent all their free time to vacation or go to the outside with their family members or their friend. Are you aware? Many a lot of people spent that they free time just watching TV, as well as playing video games all day long. If you need to try to find a new activity here is look different you can read a new book. It is really fun for you. If you enjoy the book that you simply read you can spent all day long to reading a publication. The book M-Theory and Quantum Geometry (Nato Science Series C:) it is extremely good to read. There are a lot of those who recommended this book. These were enjoying reading this book. In case you did not have enough space to create this book you can buy the actual e-book. You can more easily to read this book from a smart phone. The price is not to fund but this book provides high quality.

Vincent Ashworth:

Playing with family in a park, coming to see the sea world or hanging out with friends is thing that usually you have done when you have spare time, in that case why you don't try point that really opposite from that. One activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love M-Theory and Quantum Geometry (Nato Science Series C:), you may enjoy both. It is great combination right, you still would like to miss it? What kind of hang type is it? Oh seriously its mind hangout fellas. What? Still don't understand it, oh come on its referred to as reading friends.

William Reynolds:

Do you one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Try to pick one book that you never know the inside because don't evaluate book by its cover may doesn't work the following is difficult job because you are afraid that the inside maybe not while fantastic as in the outside appear likes. Maybe you answer could be M-Theory and Quantum Geometry (Nato Science Series C:) why because the excellent cover that make you consider regarding the content will not disappoint a person. The inside or content will be fantastic as the outside or maybe cover. Your reading sixth sense will directly direct you to pick up this book.

Keri Yokum:

Reading a publication make you to get more knowledge from the jawhorse. You can take knowledge and information coming from a book. Book is created or printed or created from each source in which filled update of news. With this modern era like at this point, many ways to get information are available for a person. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to spread out your book? Or just seeking the M-Theory and Quantum Geometry (Nato Science Series C:) when you required it?
