Long overdue, magnetic pole reversal finally happens suddenly and catastrophically over the course of three days. Remapping Earth and bringing destruction of civilization as we know it, the reversal also leaves behind a residual psychic energy, being put to use by civilians and government alike.

Atlantis has risen during the upheaval and the race is on to find out if the famed continent still holds the superior technology and controversial knowledge described in legend.

Meanwhile, ordinary citizens are faced with day to day survival in a destroyed environment while fighting for a say in what their new world should look like.
