Methods of Family Research Theodore N. Greenstein, Shannon N. Davis

In the 3rd edition of **Methods of Family Research**, authors Theodore N. Greenstein and Shannon N. Davis continue to help students better understand the research results they encounter in doing family research. Using real-life examples to illustrate important concepts that family researchers encounter regularly, the text covers traditional quantitative methods, qualitative methods, and the mixed-method approach. Written in a clear, concise style, this book differs from other research methods texts, which focus on teaching students how to produce research, by teaching them how to consume research in a sophisticated, effective manner. The book introduces the basic concepts of social science research methods without excessive technical details.
