Sams Teach Yourself Java 2 in 24 Hours (3rd Edition) (Sams Teach Yourself...in 24 Hours (Paperback)) Rogers Cadenhead

Sams Teach Yourself Java in 24 Hours is a step-by-step tutorial that teaches someone with no previous programming experience how to create simple Java programs and applets.

It starts out at a lower level than *Sams Teach Yourself Java in 21 Days*, and takes things at a slower pace, focusing on key programming concepts and essential Java basics.

Although the basic structure of the book, and many of its examples, will remain the same in this new edition, the author will make use of dozens of reader comments to make improvements to explanatory text and example programs.

This new edition of the book maintains and improves upon all these qualities, while updating, revising, and reorganizing the material to cover the latest developments in Java and to expand the book's coverage of core Java programming topics.
