Infection Prevention and Control: A guide for healthcare professionals in low-resource settings

Angela Dramowski

Infection Prevention and Control: A guide for healthcare professionals in low-resource settings Angela Dramowski

“An essential guide for infection prevention and control for all health practitioners working in resource-limited areas.”—Professor Lucille Blumberg

“A very comprehensive and clearly written infection prevention and control manual applicable to all healthcare workers”—Britte du Toit, Infection Prevention and Control Specialist, Mediclinic Southern Africa

Based on the acclaimed Perinatal Education Programme, Infection Prevention and Control was written for nurses, doctors, and health administrators working in the field of infection prevention and control, particularly in resource-limited settings. It covers:

- IPC programmes
- micro-organisms relevant to infection prevention and control
- risk assessment and management
- hand hygiene
- health facility design
- cleaning and waste management
- outbreak surveillance and investigation
- tuberculosis IPC
- antimicrobial stewardship

This publication is part of the Bettercare series which addresses the need for continuing education by providing self-managed learning opportunities to health professionals. This book was developed to expand access to education in Infection Prevention and Control for all categories of healthcare workers, especially those working in low-resource settings. The content of the book is broadly based on a five-day introductory course run by the Unit for Infection Prevention and Control at Stellenbosch University and Tygerberg Hospital in Cape Town, South Africa.

Royalties from the sale of this book go to the Infection Control Africa Network (ICAN).
