Job hunters need to do many things to get a job - - call all their friends and relatives, answer ads, and send out hundreds, even thousands of letters and resumes in a targeted direct email, direct fax or direct snail mail campaign. Our online databases and directories are designed to help you in that last task - to get your personal cover letter and resume to the executive search firms that specialize in your field.

Executive search firms work to fill management positions at top companies across the U.S. and abroad. It is estimated that almost two-thirds of executive positions are filled by executive search firms. Personnel agencies work to fill professional, technical, and administrative personnel at companies. The search firms and agencies in our database are hired and paid by companies that need new employees.

Our Directories of Search Firms and Recruiters are drawn from our database of more than 15,000 search firms and personnel agencies and 26,000+ key contacts. The directories contain descriptive information about each search firm and recruiter in its category and contain the contact information that you can easily use to contact these recruiters.

Our data are widely used by job hunters and career professionals. In addition to many internet sites and resume writers, many of the major professional outplacement companies (Career Partners, Drake Beam, Right Associates, Lee Hecht Harrison, Goodrich & Sherwood, . . .) and University career offices (Harvard, Stamford, Columbia, .) use Custom Databanks' data through our own online database or CareerSearch.net.
